

Vision vs. Medical Plans

Unlike your medical doctor's office, we may accept both medical insurance **AND** vision discount plans. You may have one or both.

This document explains the difference between these two types of benefits **AND** it explains your responsibility.

We will always strive to maximize your Vision and Medical benefits for the best advantage.

Both types of plans **MAY** include co-pays and deductibles which are your responsibility as outlined by your Vision or Medical provider when you elected your plan.

We will answer additional questions for you as you may wish.

.....
If my eye doctor determines I am at risk of an eye disorder or eye disease:

- I will be made aware when additional testing and evaluation is necessary to manage my eye health and sight.
- Any testing for my benefit will be billed to my Medical Health Insurance.
- I am aware co-payments and co-insurance are my responsibility at the time of service.

I understand:

- Dr. Weberling and Associates will submit both vision and medical claims when appropriate in order to maximize my benefits.
- Both my Vision Plan and Medical Insurance **MAY** have co-pays and deductibles which are due at the time of service.
- For initial treatment and any prescribed follow-up treatment, my Vision Plan or Medical Health insurance determines the co-pay or co-insurance that is due and payable at the time of service for each visit.
